

**Notice of Request for a Permit  
Before the Wyoming Industrial Siting Council  
Docket Number DEQ/ISC 13-02  
Simplot Phosphates, LLC - Rock Springs Ammonia Facility Project**

**Notice of Request for a Permit**

Pursuant to provisions of the Wyoming Industrial Development Information and Siting Act and Siting Rules and Regulations, Notice is hereby given that Simplot Phosphates, LLC (Applicant) has filed an Application for a Permit to construct and operate the Rock Springs Ammonia Facility Project. Applicant proposes to construct a production plant, related utilities, and offsite facilities to produce up to 600 short tons per day of anhydrous ammonia in a single production train. The plant will be constructed adjacent to the existing Simplot Phosphate Fertilizer Complex on private land located five miles south of Rock Springs, Wyoming. Construction is anticipated to commence in the third quarter of 2014 and continue through the third quarter of 2016. Construction manpower is anticipated to peak at 460 workers during the first quarter of 2016.

The public may review a copy of the Permit Application at the Sweetwater County Clerk's office at 80 West Flaming Gorge Way, Suite 109, Green River, Wyoming or at the Wyoming Department of Environmental Quality, Industrial Siting Division's website: <http://deq.state.wy.us/isd/isdnews.htm>. Public comments concerning potential social, economic, or environmental impacts that may result from the proposed project may be submitted to the Industrial Siting Division on or before May 1, 2014 at the address indicated below.

Dated this 17<sup>th</sup> Day of March, 2014
